

## BUSINESS SUMMARY

TekSkope LLC is a small business cybersecurity consulting firm specializing in Information System Security Officer (ISSO) services, Risk Management Framework (RMF) execution, FISMA and ATO lifecycle support for federal and state agencies. We focus on delivering stable, low-turnover security support that enables programs to maintain compliance while meeting mission timelines.

## CORE CAPABILITIES

### ISSO Services

- Embedded ISSO support for Moderate and High systems
- Continuous monitoring and control oversight
- Security documentation maintenance (SSP, SAP, SAR, POA&M)

### RMF & ATO Lifecycle Support

- RMF implementation and sustainment
- ATO renewals, reauthorizations, and interim approvals
- Risk assessment and POA&M remediation tracking

### GRC & Compliance

- NIST SP 800-53 Rev. 5 implementation
- FISMA metrics, reporting, and audit readiness support.
- Coordination with system owners, ISSOs, and AO offices

## RELEVANT EXPERIENCE

### Centers for Medicare & Medicaid Services (CMS)

- Supported federal systems through RMF execution and ATO
- Assisted with continuous monitoring, POA&M management, and audit readiness
- Embedded ISSO support for Moderate and High systems

### State Government (Maryland State Board of Elections)

- Provided security compliance and governance support
- Demonstrated ability to align security requirements with operational realities

## COMPANY SNAPSHOT
